Following the Eaton Fire, does the city have plans to assist canyon residents with mud and landslide mitigation and, if possible, prevention? If so what are they and when will these efforts begin?

Sincerest thanks,  
Katherine

Mayor Parkhurst and members of the City Council,

I am writing to urge you to approve Consent Agenda item d and sign the letter of support for Arcadia's application for a sustainable transportation grant. This grant, if awarded, will assist the City of Arcadia in planning for improvements to its active transportation infrastructure, benefiting members of our community who use active modes of travel to neighboring Arcadia and making streets safer for all road users and more sustainable.

Thank you,

John Lloyd  
Sierra Madre, CA

Good day,

I am writing on behalf of my mother aged 78 years. She has been a resident of Sierra madre for over 2 decades. She was independent until right before Covid, when she was told she could no longer drive. I live 50 miles away and have no other support. My mother relies on Dial a ride for everything and has had horrible luck using Access transportation. There are many seniors and disabled persons who rely on dial a ride. Please bring it back or collaborate with surrounding cities to give our seniors back tere ability to get out of their homes and not isolate. I recently had to evacuate her due to fires and I understand resources are scarce, but seniors shouldn't have to suffer as well. Thank you in advance for your consideration.

Sincerely,  
Nicole and Yolanda Wright
