Happy 91024, Mayor Kriebs and Council members,

As the Council will soon review bids from contractors for the major renovation and expansion of the Sierra Madre Public Library, I suggest that the Council form an Ad Hoc committee to monitor the progress of construction and to keep major stakeholders informed. This committee could consist of two Council members and one representative from each of the following: Library Board of Trustees, Friends of the Sierra Madre Library and the Sierra Madre Library Foundation. Communication between these groups will be critical to the timely completion and furnishing of the library by March of 2026. Your serious consideration is respectfully requested.

Best regards,

Rob Stockly
