ENVIRONMENTAL DETERMINATION: On September 27, 2022, pursuant to 14 Cal. Code of Regulations (CCR) Section 15090, the City Council certified that the Meadows at Bailey Canyon Specific Plan Final Environmental Report (Final EIR) was completed in compliance with CEQA. Pursuant to Public Resources Code Section 21081(a) and 14 CCR Section 15091(a), findings, accompanying mitigation measures, and a Mitigation Monitoring Program were also approved and adopted by the City. State law requires the preparation of an EIR for projects that have the potential for environmental impacts. Public Resources Code Section 21002 requires that an EIR identify the significant effects of a project on the environment and provide measures or alternatives that can mitigate or avoid these effects. The EIR evaluates the environmental effects associated with the development of the project and discusses the manner in which the project's significant effects can be reduced or avoided through the implementation of mitigation measures or feasible alternatives to the proposed project. Design Review Permit 25-02 is a project that is consistent with and implements the Meadows at Bailey Canyon Specific Plan. Pursuant to 14 CCR Section 15182, projects consistent with an adopted specific plan are exempt from CEQA.

APPEAL: If in the future anyone wishes to challenge the decision of the City Council in court, one may be limited to raising the issues that were raised or presented in written correspondence delivered to the City Council at, or before, the scheduled public hearing.
